Multi-Partisan Environmental Dialog

Finding Commonality in
Diverse Perspectives

Finding Commonality in Diverse Perspectives

The Iris Forum

Purpose – Promote dialogue from diverse perspectives, resulting in broadened awareness of humanity's relationship with the environment.

Mission – Foster knowledge, wisdom and ideas regarding environmental issues, through educational and media outreach to the public, industry, and government.

Vision – The Iris Forum is a resource for addressing environmental conflict and serves as an open, international, intercultural, and multi-partisan dialog regarding the biological, social and economic effects of human activities on our environment. This dialog results in an ongoing intentional shift toward personal environmental responsibility.

The Iris Forum

On the *same* stage — a Democrat, Republican, Green, Libertarian, Independent and Natural Law — all talking about *one issue*.

Watch the sparks fly!

This dialog produces results.

The Iris Forum finds a convergence of commonalities.

This is where solutions lie!
